

CREATING A WORLD OF CONNECTIVITY

Environmental Policy

2021

GL Telecoms Ltd

Context

Established in 2016, GL Telecoms deliver a cost effective full turnkey solution providing a nationwide full fibre network, ensuring that UK businesses and communities are connected. We adapt to the ever-changing network, plan for the future and pride ourselves on implementing innovative engineering solutions.

The company is an SME employer in Merseyside and is also committed to the care of the environment, by the continual improvement of its performance, pollution prevention and compliance with legal and other environmental requirements and compliance to needs and expectations of interested parties.

Considering the purpose and context of our organisation, and the condition of the environment in which our company operates, the senior management of GL Telecoms Ltd is committed to the continual improvement of the Integrated Management System (IMS), according to compliance obligations and by following the principles and requirements of ISO 14001:2015.

The framework for setting environmental objectives is defined in the Integrated Management System Manual.

The Environmental Policy of GL Telecoms Ltd is to ensure that we:

- Meet or exceed compliance to all environmental legislation that relates to GL Telecoms Ltd.
- Minimise toxic emissions through the selection use of our power and fuel requirements
- Continually improve the company's environmental performance through the establishment, achievement, and regular review of environmental aspects
- Continually review processes and consider any potential adverse effects on the local environment
- Develop all areas of the business in order to continually improve our environmental performance
- Actively promote re-use and recycling of all generated wastes both internally and amongst its customers and suppliers
- Realise an environmental duty of care to our employees, customers, regulatory bodies, neighbours, and other interested parties
- Communicate this policy to all employees and those working on behalf of the company
- Make the Environmental Policy publicly available on request.

The Environmental Policy will be considered, where economically feasible and practicable, when making financial and operational decisions.

The implementation of the Environmental Policy has the full commitment of the company at the highest level and the contribution of everyone is essential in achieving our goals.

Whilst always mindful of changing needs and requirements of both the Company and its Customers, this policy will be reviewed by top management for ongoing suitability as an agenda item within our integrated Management System Review, and within the context of the business and the needs and expectations of all interested parties.

Garry Lea
MANAGING DIRECTOR
